

Tips for Maintaining Belts

- Most manufacturers recommend changing the flat rubber belt every 6 months to maintain optimum performance.
- Replace 'V' belts at the same time as the flat belt in dual belt systems. 'V' belts very often will not appear worn or bad, but inspect the tapered sides for glazing and replace if shiny (glazed).
- Inspect the cogged belt annually and change accordingly.

Key to Belts

BEAM

612	fits Rugmaster ⁺ Power Nozzle, Flat belt
611	fits Advocate Power Nozzle, Cogged Belt, ALSO Fits Eureka CV280 The Boss, Eureka CV290 Powerline and Eureka EL101A models, Fits Electrolux Afuera EXL1250, Fits Honeywell B1501 and HL102A, And fits Imperium PowerTeam Power Nozzle.
